

# **Construction Innovation and Technology Fund**

## **Appendix I to the Guide to Application Application Framework**

**April 2025 Issue**

## I. General Remarks

- Unless otherwise specified, this Application Framework shall apply to new applications submitted on or after 1 May 2025. Applications made before this date shall be subject to the Application Framework (February 2025 issue).
- Applicants shall submit the application **BEFORE** any financial commitment. **Retrospective approval**, except subsidy for hiring Specialist Modular Integrated Construction (MiC) Consultant, and procuring or renting MiC Specific Construction Plant and MiC Modules, will **NOT** be **given for expenses incurred before** submitting Construction Innovation and Technology Fund (CITF) applications.
- To facilitate project planning and implementation, applicants can commit expenditures after submitting CITF application before the CIC issues notification of approval. Nevertheless, applicants shall bear the associated risks for applications being rejected.
- The **combined** funding ceiling for Building Information Modelling (BIM) and Advanced Construction Technologies (ACT) is **HK\$7,500,000 per applicant**, of which **HK\$1,500,000 is designated solely for funding applications submitted on or after the 1 April 2023 for procurement or rental of Smart Site Safety System (4S) products<sup>1</sup>** for private works sites (see Section III below).
- Funding grant approved for “Pioneering Application in Hong Kong” and “Industrialised Processing - Robotic Welding” are **counted independent** of the aforesaid combined per-applicant ceiling of HK\$7,500,000.
- Enterprises with **30% or more ownership** held by the same owner/shareholder, irrespective of processing different Business Registration numbers, shall be treated as **one single enterprise in counting the funding ceiling per applicant**.
- To encourage the use of local technological innovations and products, CITF will bear a higher maximum ratio of **80%** (as opposed to the ratio of 70% or 50%<sup>2</sup> in general cases) of the total costs of the Approved Project<sup>3</sup> which adopts locally developed innovations or products. For the purpose of CITF, local research and development projects which have been approved and completed under relevant funding schemes of the Government’s Innovation and Technology Fund (“ITF”) are regarded as locally developed innovations or products. For other locally developed innovations or products not involving ITF, applicants should provide information to substantiate that such innovations or products are developed in Hong Kong or by local talents or by local tertiary institutions. The Vetting Sub-Committee will assess whether such innovation or product can qualify for the higher maximum matching ratio of 80% on a case-by-case basis.
- Applications together with complete supporting documents on Manpower Development shall be submitted to the CIC at least 90 calendar days before event date. Urgent applications would be considered on individual merits.
- CITF will not fund the maintenance cost, office overheads, materials cost, consumables, spare parts, solutions, services and other administrative expenses incurred in the project in general, unless specified otherwise or there are exceptional circumstances or justified grounds.
- Procurement or rental of product(s) or service(s), unless specified otherwise, will have to be supported by **written quotation(s)** as per the below requirements -

<b>Aggregate Value of Procurement or Rental</b>	<b>No. of Required Written Quotations</b>
• Value <b>not exceeding HK\$50,000</b>	At least <b>one</b> quotation
• Value <b>over HK\$50,000 but not exceeding HK\$200,000</b>	At least <b>two</b> quotations
• Value <b>over HK\$200,000</b>	At least <b>three</b> quotations

- Applicants shall provide full justifications if failing to submit the required quotations or accept the

<sup>1</sup> Please refer to the Pre-approved Technologies List on the CITF website at [www.citf.cic.hk/?route=search-key&lang=1](http://www.citf.cic.hk/?route=search-key&lang=1) for the pre-approved 4S products.

<sup>2</sup> Applicable to funding applications for “traditional plants incorporated with built-in innovative elements inseparable from the plants the cost of which does not account for a substantial portion of the cost of the plants” submitted on or after 27 February 2023.

<sup>3</sup> For applications involving pre-approved products, the total costs of the Approved Project shall be subject to the **Approved Product Price** published on the CITF website at <https://citf.cic.hk/?route=search-key&lang=1>.

lowest conforming offer.

- Approved funding will be disbursed on a reimbursement basis. For technology adoption, **reimbursement will generally be made in two instalments (except those who opt for earlier funding disbursement**, as detailed in the bullet below). The first instalment of 80% of approved funding will be paid upon provision of documentary proof of payments while the remaining instalment of 20% will be paid 12 months after the date of the first disbursement request and upon the Successful Applicant's satisfactory submission of the required information or documents listed in the final disbursement form<sup>4</sup>. For rental companies of construction mobile plants and tower cranes which are eligible to apply for procurement of Smart Site Safety System (4S) for installation on tower cranes and 11 specified types of mobile plants (i.e. excavator, crawler crane, gantry crane, truck-mounted crane, wheeled telescopic mobile crane, bulldozer, compactor, dumper, grader, loader, scraper) for the period from 1 September 2024 to 31 October 2024, the final instalment i.e. 20% of the fund grant will not be disbursed if the installation of the funded-4S products are installed beyond the requisite timeframe from 1 September 2024 to 28 February 2025 without reasonable justification agreed by the CIC. Please refer to the [Guide to Application](#) for detailed requirements for disbursement.
- Successful Applicants for the categories of Advanced Construction Technology (ACT) and Building Information Modelling (BIM) adoption may opt for earlier funding disbursement if the following two criteria are fulfilled: (i) Product delivery time (either pledged or actual) takes longer than 2 months; and (ii) Payment to vendor in one single bank transaction exceeds HK\$100,000. Where Successful Applicant opts for earlier funding disbursement, reimbursements could be made every time it makes payment (payment sum exceeding HK\$100,000) to the vendor before product delivery upon the Successful Applicant's submission of document proof to the CIC. The reimbursement will be kept at a rate of 70% of the actual amount the Successful Applicant has paid for procuring the technology before product delivery, subject to a cap of 80% of the approved funding. Upon product delivery, Successful Applicant could apply for reimbursing the remainder (if any) of 80% of the approved funding. Similar to applications without opting for earlier funding disbursement, the final instalment of 20% will be paid upon Successful Applicant initiating the final disbursement request 12 months after the date of the first disbursement request and the satisfactory submission of the required information or documents listed in the final disbursement form<sup>4</sup>. An example of the earlier funding disbursement arrangement is illustrated below for reference. For details about funding disbursement procedures and arrangements, please refer to the CITF "[Guide to Application](#)".

Example:

Product price: HK\$1,000,000 and Approved funding: HK\$700,000

Timing of applicant's payment to vendor	Applicant's Payment	Funding Disbursement by the CIC	Cumulative Funding Disbursement by the CIC	Remarks
1 <sup>st</sup> deposit (before delivery)	HK\$500,000	HK\$350,000	HK\$350,000	Funding Disbursement = 70% of Applicant's Payment
2 <sup>nd</sup> deposit (before delivery)	HK\$200,000	HK\$140,000	HK\$490,000	Funding Disbursement = 70% of Applicant's Payment
3 <sup>rd</sup> deposit (before delivery)	HK\$50,000	Nil	HK\$490,000	Not eligible for earlier funding disbursement as single bank transaction < HK\$100,000
Final (upon delivery)	HK\$250,000	HK\$70,000	HK\$560,000	Cumulative Funding Disbursement = 80% of approved funding
		HK\$140,000	HK\$700,000	Final instalment after 12 months = Remaining 20% of approved

<sup>4</sup> Please refer to [Important Notes – Technology Adoption](#) and [Important Notes – Manpower Development](#).

				funding
Total	HK\$1,000,000	HK\$700,000		

- For manpower development, reimbursement will be made within two years from the date of approval, subject to prior approval up to the specified ceilings. For local courses or conferences, payments on an instalment basis may also be allowed subject to receipt of documentary proof.
- Approved funding will only be disbursed upon fulfilment of all Terms and Conditions.
- In the event of any inconsistency between the English version and Chinese version of any provision of the Application Framework, the English version shall prevail.

## II. Overall Scope of Subsidy

### 1. Technology Adoption

	ACT	BIM	MiC	Prefabricated Steel Rebar
Funding Scope	<ul style="list-style-type: none"> <li>General Application<sup>5</sup> <ul style="list-style-type: none"> <li>➢ Procurement</li> <li>➢ Rental</li> <li>➢ Ancillary Costs for 4S Adoption</li> </ul> </li> <li>Pioneering Application in Hong Kong</li> <li>Industrialised Processing - Robotic Welding</li> </ul>	<ul style="list-style-type: none"> <li>BIM Training <ul style="list-style-type: none"> <li>➢ Classroom-bound Mode Training</li> <li>➢ BIM Viewer Collaborative Training</li> <li>➢ Project-based Coaching</li> </ul> </li> <li>BIM Adoption <ul style="list-style-type: none"> <li>➢ Project adoption</li> <li>➢ Experiential use</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Additional costs incurred by Project Consultant for MiC adoption</li> <li>MiC Specific Construction Plant</li> <li>MiC Modules</li> <li>Specialist MiC Consultant<sup>6</sup></li> <li>Admission to the Buildings Department (BD)'s List of Pre-accepted MiC Systems<sup>4</sup></li> </ul>	Prefabricated rebar products manufactured by Civil Engineering and Development Department (CEDD) pre-approved yards
Funding Ceiling	<ul style="list-style-type: none"> <li>General Application: HK\$7,500,000 per applicant (combined with BIM; of which HK\$1,500,000 is designated solely for 4S products<sup>7</sup>)</li> <li>Rental: HK\$1,000,000 per applicant<sup>8</sup></li> <li>Pioneering Application: HK\$10,000,000 per application</li> <li>Industrialised Processing - Robotic</li> </ul>	<ul style="list-style-type: none"> <li>BIM Training: HK\$6,000,000 per applicant</li> <li>BIM Adoption: HK\$1,500,000 per applicant</li> </ul> <p>(The combined funding ceiling for ACT and BIM is HK\$7,500,000 per applicant, of which</p>	<ul style="list-style-type: none"> <li>For buildings of 16 to 30 or above storeys: Up to HK\$17,000,000 per project (applicable to MiC projects awarded on or after 1 October 2023)</li> <li>For buildings of 6 to 15 storeys: Up to HK\$13,500,000 per project</li> </ul>	HK\$5,000,000 per project

<sup>5</sup> From 1 September 2024 to 31 October 2024, rental companies of construction mobile plants and tower cranes are eligible to apply for procurement and installation of Smart Site Safety System (4S) on tower cranes and 11 specified types of mobile plants (i.e. excavator, crawler crane, gantry crane, truck-mounted crane, wheeled telescopic mobile crane, bulldozer, compactor, dumper, grader, loader, scraper) (including cost of procurement and the enhanced support of network upgrading and maintenance and technical support) for those private works projects. The installation shall be completed by 28 February 2025 except with reasonable justification agreed by the CIC.

<sup>6</sup> Funding support for Specialist MiC Consultant shall be ceased for MiC projects with tender closing date on or after 1 October 2023, and funding support for Admission to the Buildings Department (BD)'s List of Pre-accepted MiC Systems shall cease for submission to the BD made on or after 1 October 2023. Funding applications for Specialist MiC Consultant for MiC projects awarded before 1 October 2023 shall be submitted within 12 months from the said contract award date, and that for Admission to the BD's List of Pre-accepted MiC Systems shall be submitted within 12 months from BD approval date. Applications received after the prescribed deadline will not be processed. .

<sup>7</sup> The HK\$1,500,000 shall only be applicable to funding applications for 4S products to be used in private works sites submitted on or after 1 April 2023. Since 1 April 2023, the CITF only supports 4S adoption in private works sites.

<sup>8</sup> Applicable to funding applications submitted on or after 1 September 2023. For funding applications submitted before 1 September 2023, the per-applicant fund ceiling for rental remains at HK\$600,000.

	<b>ACT</b>	<b>BIM</b>	<b>MiC</b>	<b>Prefabricated Steel Rebar</b>
	<p>Welding: HK\$800,000 per applicant</p> <ul style="list-style-type: none"> <li>• HK\$300,000 per specified heavy machineries<sup>9</sup></li> </ul>	<p>HK\$1,500,000 is designated solely for procurement or rental of 4S products. In other words, applicants are eligible for up to HK\$6,000,000 funding support for BIM, which can be fully allocated to training or partially allocated to adoption up to HK\$1,500,000.)</p>	<p>(applicable to MiC projects awarded on or after 1 October 2023)</p> <ul style="list-style-type: none"> <li>• For applicable MiC projects awarded before 1 October 2023 with building height of 6 storeys or above: Up to HK\$14,000,000 per project</li> </ul>	

## 2. Manpower Development

	<b>Local Collaborative Courses</b>	<b>International Conferences in Hong Kong</b>	<b>Non-local Enrichment Courses for Students</b>	<b>Non-local Training / Visits for Practitioners</b>
Funding Scope	<ul style="list-style-type: none"> <li>• Event venue and set up</li> <li>• Additional manpower</li> <li>• Course material</li> <li>• Cross-border transportation and accommodation for speakers</li> <li>• Reasonable meals</li> <li>• Honorarium</li> <li>• Administration and Audit fees</li> </ul>	<ul style="list-style-type: none"> <li>• Event venue and set up</li> <li>• Additional manpower</li> <li>• Conference collaterals</li> <li>• Cross-border transportation and accommodation for speakers</li> <li>• Reasonable meals</li> <li>• Honorarium</li> <li>• Administration and Audit fees</li> </ul>	<ul style="list-style-type: none"> <li>• Course fees</li> <li>• In-town transport and miscellaneous expenses</li> <li>• Reasonable meals</li> <li>• Cross-border transportation and accommodation of reasonable standard</li> </ul>	<ul style="list-style-type: none"> <li>• Training fees</li> <li>• In-town transport and miscellaneous expenses</li> <li>• Reasonable meals</li> <li>• Cross-border transportation and accommodation of reasonable standard (50% matching basis)</li> </ul>

<sup>9</sup> These refer to “traditional plants incorporated with built-in innovative elements inseparable from the plants the cost of which does not account for a substantial portion of the cost of the plants”. Please refer to the Pre-approved Technologies List on the CITF Website at [www.citf.cic.hk](http://www.citf.cic.hk).

	Local Collaborative Courses	International Conferences in Hong Kong	Non-local Enrichment Courses for Students	Non-local Training / Visits for Practitioners
Funding Ceiling	<b>HK\$300,000</b> per course	<b>HK\$1,000,000</b> per conference	<b>HK\$100,000</b> per student (accumulative)	<b>HK\$20,000</b> per person per training/ visit

### III. Technology Adoption

1. Advanced Construction Technologies (ACT)		
	General Adoption	Pioneering Application in Hong Kong
Funding Scope	<ul style="list-style-type: none"> <li>• Project Adoption (Procurement)</li> <li>• Rental</li> <li>• Ancillary costs for 4S adoption<sup>10</sup>, including:               <ul style="list-style-type: none"> <li>(i) <u>Additional</u> network cost<sup>11</sup> (e.g. additional gateways/ transmitters/ receivers and subscription of mobile network (e.g. 4G/ 5G) to enable the necessary internet coverage for 4S adoption areas) induced by adoption of CITF-funded 4S products;</li> <li>(ii) <u>Additional</u> manpower cost<sup>12</sup> directly incurred for implementation of the CITF-funded 4S products; and</li> <li>(iii) Cost of technical support required<sup>13</sup> for operation, maintenance and trouble-shooting of the CITF-funded 4S products provided by the 4S product vendor(s)<sup>14</sup> after the bundled initial maintenance period.</li> </ul> </li> <li>• Ancillary costs for adoption of robotic technologies</li> </ul>	Costs incidental to introducing the technology for experiential use in Hong Kong, e.g. machine procurement and delivery, hardware and software modification and adaptation for a new functional use in Hong Kong, related material, manpower development and training costs, etc.

<sup>10</sup> The applicant can either submit a funding application together with or after the funding application for procurement/ rental of the 4S product(s). For the latter scenario, the applicant shall confirm the need for such cost items (e.g. additional maintenance after the bundled initial maintenance period to sustain the 4S adoption throughout the project period). In any case, the applicant shall submit the application within 6 months from the approval date of the funding application for the relevant 4S product(s) for additional network and 4S implementation manpower cost; or within 6 months from the expiry of the initial bundled maintenance period for additional maintenance cost.

<sup>11</sup> Assessment Principle for additional network cost:

- For mobile network, the cost to be supported shall be such installation and operation of mobile network cost required, and/or the quantity of SIM cards under the funding application to support the CITF-funded 4S devices.
- For fixed network (e.g. wifi, LoRA, etc.), the assessment shall be based on the applicants' completion of a standard form provided by the CIC confirming use, cost and quantity of the key cost items listed in the form (e.g. location plans of network equipment, types of equipment, 4S products covered for the relevant parts of network set-up, etc.), so as to demonstrate that such network system is provided additionally on site for 4S implementation but not for routine operation of the site office unrelated to 4S.

<sup>12</sup> The duties of the additional manpower shall be any one of or a combination of the following due to 4S implementation:

- overseeing and monitoring and promptly attending alerts/ signals for taking immediate actions;
- co-ordinating with different groups of users on-site for follow-up on daily use of 4S systems liaison with the relevant vendors for resolving technical issues and their maintenance;
- preparing and coordinating the execution of the overall 4S implementation plan including deducing procedures for all site users to follow;
- data transmission and analysis including generation of necessary reports;
- monitoring of network or 4S equipment or device set-up, installation or relocation including associated cabling and electrical works; and
- 4S system configuration work.

<sup>13</sup> Reasonable technical support and maintenance include the following:

- Extension of hardware warranty;
- Regular updates/ revisions of the centralised management platform or software or e-platform of the 4S products;
- On-site or online diagnosis of faults of 4S products;
- Provision of technicians for repair and maintenance of 4S products including both hardware and software;
- Reasonable period of technical support and maintenance, which we suggest that it should not exceed the expiry of contract period and in any case no longer than 3 years.

<sup>14</sup> Product vendor throughout this document means the 4S product manufacturer or intellectual property (IP) right owner or its authorised service provider.

<b>1. Advanced Construction Technologies (ACT)</b>		
	<b>General Adoption</b>	<b>Pioneering Application in Hong Kong</b>
	<p>through procurement, including:</p> <ul style="list-style-type: none"> <li>(i) <u>Additional</u> manpower/ training costs (e.g. deployment of manpower for operating or maintaining the robots, provision of necessary training for robot operators etc.) induced by adoption of CITF-funded robots; and</li> <li>(ii) Cost of maintenance of the CITF-funded robots provided by the robot vendor(s)<sup>15</sup> after the bundled initial maintenance period.</li> </ul>	
Funding Mode	<ul style="list-style-type: none"> <li>• <b>70% matching fund for project adoption</b> (80% matching fund for locally developed innovations or products; 20% matching fund for “traditional plants incorporated with built-in innovative elements inseparable from the plants the cost of which does not account for a substantial portion of the cost of the plants”)</li> <li>• <b>50% matching fund for rental</b></li> </ul> <p>(For applications submitted on or after 1 August 2023 involving pre-approved products, the total costs of the Approved Project shall be subject to the <b>Approved Product Price</b> published on the CITF website)</p>	<b>70% matching fund in general</b> (to be determined on a case-by-case basis)
Overall Ceiling	<b>HK\$7,500,000</b> for ACT and BIM per <u>applicant</u> (including a maximum of <b>HK\$1,000,000</b> <sup>16</sup> per applicant <b>for rental</b> and HK\$1,500,000 designated solely for 4S products in private works sites <sup>17</sup> )	<b>HK\$10,000,000</b> per <u>project</u> <sup>18</sup>
Per-technology ceiling	<ul style="list-style-type: none"> <li>• <b>HK\$1,500,000</b><sup>19</sup> per technology</li> <li>• <b>HK\$2,000,000</b><sup>20</sup> per site safety-related technology</li> <li>• <b>HK\$300,000</b><sup>21</sup> per technology defined as “traditional plants incorporated with built-in innovative elements inseparable from the plants the cost of which does not account for a substantial portion of the cost of the plants”</li> <li>• For ancillary costs for 4S adoption: <ul style="list-style-type: none"> <li>(a) Funding cap for additional manpower cost is HK\$20,000 per month for each construction site; and</li> </ul> </li> </ul>	N/A

<sup>15</sup> Product vendor throughout this document means the robot manufacturer or intellectual property (IP) right owner or its authorised service provider.

<sup>16</sup> This ceiling applies to funding applications submitted on or after 1 September 2023. For funding applications submitted before 1 September 2023, the fund ceiling for rental shall be HK\$600,000 per applicant and HK\$300,000 per technology.

<sup>17</sup> The HK\$1,500,000 shall only be applicable to funding applications for 4S products to be used in private works sites submitted on or after 1 April 2023. Since 1 April 2023, the CITF only supports 4S adoption in private works sites.

<sup>18</sup> Projects with applied funding exceeding HK\$10,000,000 will be considered by the Steering Committee on CITF.

<sup>19</sup> Including HK\$1,000,000 per technology for rental share among all applications under ACT.

<sup>20</sup> Including HK\$1,000,000 per technology for rental share among all applications under ACT. Funding support for ancillary costs for 4S adoption should not be counted towards this per-technology ceiling.

<sup>21</sup> Including rental share (subject to the fund ceiling for rental of HK\$1,000,000 per technology) among all applications under ACT.

<b>1. Advanced Construction Technologies (ACT)</b>		
	<b>General Adoption</b>	<b>Pioneering Application in Hong Kong</b>
	<p>(b) Combined funding cap for all ancillary costs for 4S adoption is 50% of the total CITF subsidy for the 4S products procured using CITF funding for each construction site.</p> <ul style="list-style-type: none"> <li>Funding cap for ancillary costs (i.e. maintenance and additional manpower/ training costs) for procurement of robotics is 50% of the fund grant for the relevant robot.</li> </ul>	
Eligible applicants	<ul style="list-style-type: none"> <li><b>Contractors, Consultants, Registered Specialist Trade Contractors and Subcontractors</b></li> </ul>	<p><b>Contractors, Registered Specialist Trade Contractors and Subcontractors, Consultants or Trade Associations</b> (may partner with organisations such as local tertiary educational institutions, local research institutes, Cyberport, Hong Kong Science and Technology Park, Hong Kong Productivity Council, etc. to implement the project)</p>
Other Requirements	<ul style="list-style-type: none"> <li>Maximum period for rental: 12<sup>22</sup> months</li> <li>For funding applications for 4S products: Subsidy for 4S under funding applications submitted on or after 1 April 2023 shall be counted against the HK\$1,500,000 designated solely for 4S first. Where the total approved amount on 4S of the applicant has reached HK\$1,500,000, the applicant can still apply for 4S products subject to the remaining balance under the combined fund ceiling for ACT and BIM.</li> <li>For additional manpower under ancillary costs for 4S adoption: <ul style="list-style-type: none"> <li>(a) The applicant is required to confirm a designated staff is assigned to undertake the duties arising from 4S implementation by submitting a signed standard declaration form provided by the CIC. Applicant shall notify the CIC in writing for any change of such 4S personnel dedicated for such works.</li> <li>(b) For outsourcing work to external parties, the stipulated procurement procedures shall be complied with and the required number of quotations by different service providers with</li> </ul> </li> </ul>	<p>The applicant shall share the <b>benefits/ experience</b> for the use of the technology with other industry stakeholders through one or more of the following means:</p> <ul style="list-style-type: none"> <li>Share or transfer the <b>intellectual property</b> (IP) rights, if any, to industry stakeholders e.g. solutions providers, training institutes, universities, research and development (R&amp;D) centres;</li> <li>Open, transparent and non-exhaustive rights of use of the technology;</li> <li>Licensing fees, if any, should be made on an equitable basis and at</li> </ul>

<sup>22</sup> This maximum period of rental applies to funding applications submitted on or after 1 September 2023. For funding applications submitted before 1 September 2023, the maximum period of rental shall be 6 months.

1. Advanced Construction Technologies (ACT)		
	General Adoption	Pioneering Application in Hong Kong
	<p>clear descriptions of the scope of work, work requirements, quantity and cost of the relevant personnel shall be submitted in the funding application. For funding disbursement purpose, the invoices, receipts and completed job order (i.e. similar to delivery note) shall be submitted by the applicant.</p> <ul style="list-style-type: none"> <li>For additional manpower under ancillary costs for robotic adoption, the applicant is required to confirm the designated staff is assigned to undertake the duties arising from the adoption of the robots by submitting a signed standard declaration form provided by the CIC. Applicant shall notify the CIC in writing for any change of such personnel dedicated for such works within 7 calendar days from the change effective date.</li> </ul>	<p>reasonable level;</p> <ul style="list-style-type: none"> <li>Other IP/ benefit sharing arrangement as required by the vetting committee</li> </ul>

1. Advanced Construction Technologies (ACT)	
	<b>Time-limited Support for Robotics from July to September 2025<sup>23</sup></b>
Funding Scope	<ul style="list-style-type: none"> <li>Procurement and rental of robotic technologies<sup>24</sup></li> </ul>
Funding Mode	<p><b>For procurement: 70% matching fund</b> (80% matching fund for locally developed innovations or products)</p> <p><b>For rental: 70% matching fund</b></p>
Funding Ceiling	<ul style="list-style-type: none"> <li><b>HK\$3,000,000 combined per-technology cap of procurement and rental</b> for robotics</li> <li><b>HK\$2,000,000</b> per technology and per applicant for rental</li> <li><b>HK\$20,000 per month</b> for renting <b>each robot</b></li> <li>The funding granted for the procurement and rental of robotics will count towards the combined funding ceiling of HK\$7,500,000 for ACT and BIM.</li> </ul>
Eligible applicants	All CITF eligible applicants
Other Requirements	<ul style="list-style-type: none"> <li>Unless with reasonable justifications agreed by CIC, procurement or rental of the robots under this time-limited support <u>shall be completed</u> by 31 December 2025.</li> <li>Maximum period for rental: <b>24 months</b></li> <li>All other CITF requirements shall apply to this time-limited support unless otherwise specified.</li> </ul>

1. Advanced Construction Technologies (ACT)	
	<b>Industrialised Process – Robotic Welding</b>
Funding Mode	<b>15% matching fund</b> for processing fee involved
Funding Ceiling	<b>HK\$800,000</b> per applicant (independent of the HK\$7,500,000 combined funding ceiling for ACT and BIM)
Other Requirements	<ul style="list-style-type: none"> <li>Only prefabricated components manufactured by off-site robotic welding in Hong Kong will be subsidised</li> </ul>

<sup>23</sup> The application shall be submitted via the CITF Application Portal from 1 July to 30 September 2025 (both dates inclusive).

<sup>24</sup> Please refer to the Pre-approved Technologies List on the CITF Website at [www.citf.cic.hk](http://www.citf.cic.hk).

	<ul style="list-style-type: none"> <li>• The CITF will subsidise processing fee only</li> <li>• Applied funding will be weighed against the reference price of the welding products provided by the supplier</li> </ul>
--	---

2. Building Information Modelling (BIM)		
	BIM Training	BIM Adoption
Overall Ceiling	<ul style="list-style-type: none"> <li>• For funding applications submitted before 1 June 2025: <b>Up to HK\$6,000,000</b> subject to the combined fund ceiling of <b>HK\$7,500,000</b> for ACT and BIM per <u>applicant</u> (See Section I – General Remarks)</li> <li>• For funding applications submitted on or after 1 June 2025: <b>HK\$1,500,000 per applicant on BIM adoption</b> (i.e. BIM software and hardware, including <u>experiential use</u>)</li> <li>• The funding granted for BIM training and adoption will count towards the combined funding ceiling of HK\$7,500,000 for ACT and BIM.</li> </ul>	
Funding Scope	<ul style="list-style-type: none"> <li>• Classroom-bound Bound Training</li> <li>• BIM Viewer Collaborative Training</li> <li>• BIM Project-based Coaching</li> </ul>	<ul style="list-style-type: none"> <li>• Project Adoption</li> <li>• Experiential Use</li> </ul>

2. Building Information Modelling (BIM) – (a) BIM Training			
	Classroom-bound Mode Training	BIM Viewer Collaborative Training	BIM Project-based Coaching
Funding Mode	<ul style="list-style-type: none"><li>• For general training courses: cash rebate of <b>70%</b> matching fund</li><li>• For CIC-Certified BIM Co-ordinators (CCBC) and CIC-Certified BIM Managers (CCBM) course: cash rebate of up to 85% matching fund disbursed in two phrases. 70% for completion of training and the other 15% granted upon completion of CCBC or CCBM certification.</li></ul>	70% matching fund for costs involved	
Funding Ceiling	HK\$6,000,000 per applicant (subject to the combined fund ceiling of HK\$7,500,000 for ACT and BIM per applicant)		
	Subject to a ceiling of	HK\$8,000 <sup>26</sup> for <b>trainer fees and class administration</b> ; and HK\$5,000 for <b>rental of</b>	HK\$200,000 per applicant on hiring a consultant to provide training according to the project characteristics.

<sup>26</sup> A fixed lump-sum subsidy of HK\$4,000 shall apply for a 4-hour BIM Viewer Collaborative Training by in-house instructors adopting CIC's BIM Viewer Teaching and Learning Kit for not less than 12 numbers of trainees including the administration fee.

2. Building Information Modelling (BIM) – (a) BIM Training			
	Classroom-bound Mode Training	BIM Viewer Collaborative Training	BIM Project-based Coaching
	<p><b>HK\$15,000 per person<sup>25</sup></b> (accumulative):</p> <ul style="list-style-type: none"> <li>• In general, <b>HK\$3,000</b> or <b>70%</b> of the course fee per course, whichever is the higher</li> <li>• For CCBC/ CCBM course,               <ul style="list-style-type: none"> <li>(a) 70% of course fee for successful completion of training (<i>subject to the HK\$15,000 per-person ceiling</i>); and</li> <li>(b) 15% of course fee for successful obtainment of the CCBC/ CCBM certification within 1 year from the course completion date (<b>NOT</b> <i>subject to the HK\$15,000 per-person ceiling</i>)</li> </ul> </li> </ul>	<p><b>external training venue<sup>27</sup></b> per session per class</p>
